Announcement:

CS3, Inc. is proud to announce it has installed its first Niagara infrastructure at the Memphis Union Mission. Niagara is leading-edge building automation technology that will allow Memphis Union Mission to monitor and control its management headquarters facility via the Internet. With a common web browser, the facility supervisor can manage the building from anywhere in the world.

CS3, Inc. is very proud to have this opportunity to provide energy savings and procurement improvement to such a worthy organization. MUM's dedication to good stewardship of their financial resources is based on their commitment to serve the poorest of our community. The technology CS3, Inc. has installed will help them control their energy costs while making the building environment better.

CS3, Inc. is a leader in providing technologies that allow building owners to control energy consumption while maintaining superior comfort to its inhabitants. In some cases CS3, Inc. can make technology improvements, reducing operating and overhead costs, with a guaranteed one to two year payback, or ROI.

CS3, Inc.'s customer list includes: city, county, & state governments; educational institutions; large corporations; hospitals; commercial & industrial facilities. CS3 services these customers from its Memphis office as well as its new office in Nashville, TN.

All inquiries for additional information should be directed to CS3, Inc.'s corporate office:
